Maya Nature Resort
Shay Investments

WEBSITE DESIGN & BUILD · OFFICIAL HANDOVER

Maya Nature *Resort*

A new home on the web, delivered.

A complete, mobile-first website — twenty-one pages, real high-resolution photography, and one-tap WhatsApp booking — crafted to help guests fall in love with the resort before they ever arrive.

Prepared by 97 Design
Neeza Amani Shyaka · Uganda & South Sudan

July 2026
Final handover

A note from 97 Design

Hello, and welcome to your new website.

This document is the complete handover of the Maya Nature Resort website — what was designed and built, how far it has come from the old site, what a build like this is worth on the open market, and how we can keep it growing for you.

The goal was simple: give Maya a presence online that feels as warm and premium as the resort itself, works beautifully on the phone in a guest's hand, and makes booking effortless — while staying fast, lightweight and genuinely yours.

Everything here is built to last and easy to evolve. On the final pages you'll find optional ways we can keep the site fresh and help fill the calendar through ongoing content and marketing.

Thank you for trusting us with it.

— *Neeza Amani Shyaka, 97 Design*

Events & Weddings — one of twenty-one pages.

Before & after

The leap

A guest's first impression forms in a **twentieth of a second** — and until now, that moment belonged to an ageing template. Here is what changed.

BEFORE

The old website

WordPress • template-era build

THE SITE GUESTS USED TO MEET

- Template look shared with thousands of other sites
- A stack of plugins to update, patch and secure
- Heavier pages — slower on Ugandan mobile data
- Desktop-era layout squeezed onto phone screens
- Dated imagery that undersold the real resort
- No clear path from *looking* to *booking*
- Ongoing platform & plugin costs, security churn

Every visitor it quietly turned away was a booking lost.

NOW

The new Maya

- ✓ **A brand of its own** — hand-crafted, premium, unmistakably Maya
- ✓ **Zero plugins** — nothing to break, patch or pay for
- ✓ **Lightweight pages** that load fast on any connection
- ✓ **Mobile-first** on every screen a guest owns
- ✓ **99 official HQ photographs** selling the real place
- ✓ **One tap to a WhatsApp reservation** from every page
- ✓ **Yours outright** — no platform fees, no lock-in

Every first impression now works for Maya — not against it.

TO BOOK

Everything that was delivered

- ✓ 21 pages, hand-built & cross-linked
- ✓ 99 high-resolution gallery photographs
- ✓ 6 rooms & cottages with real photography
- ✓ 11 amenity pages (pool, sauna, playland...)
- ✓ Full food & drinks menu
- ✓ Events, weddings & experiences pages
- ✓ Directions & contact routes
- ✓ Mobile-first, fully responsive layout
- ✓ One-tap WhatsApp booking on every page
- ✓ Filterable gallery + full-screen lightbox
- ✓ SEO setup — titles, meta, sitemap, share images
- ✓ Custom branding — logo, favicons, social cards
- ✓ Accessibility pass (alt text, keyboard nav)
- ✓ Tested — mobile + desktop, no broken links

Built to sell the stay

Every page leads the guest gently toward one clear action — reserving on WhatsApp — with no booking fees and no third-party commissions in the way. Industry data puts a direct website booking at **\$516 of value on average, versus \$312 through an OTA** — the website pays for itself with every guest it converts.

Full-screen lightbox.

What's included

Scope

Every page a guest could need — organised, cross-linked, and consistent from the first tap to the reservation.

ON EVERY PAGE

Sticky navigation
 WhatsApp concierge
 Footer + design credit

GALLERY

99 photos, filters & lightbox

Category filters and a full-screen lightbox with next / previous navigation.

ROOMS

Real photos, direct booking

Each room shown with genuine imagery, specs and one-tap “reserve on WhatsApp”.

MENU

Full food & drinks menu

Structured, readable sections presented in the resort's style.

DIRECTIONS

Getting there, made easy

Clear road guidance so guests never get lost on the way.

The gallery — high-resolution photography with live filtering.

What it's worth

Benchmarked

What would this website cost if you walked into an agency and ordered it today?

Here is the honest market answer.

Benchmarked against published 2025–26 agency pricing for custom hotel & resort websites (no templates, no page-builders — the category this site belongs to).

WHAT WAS BUILT

TYPICAL AGENCY PRICE

Custom design & build — 21 hand-coded pages Bespoke layout system, no template; custom hotel sites typically start around \$7,000	\$7,000 – \$15,000
Mobile-first responsive engineering Designed for the phone in the guest's hand, scaled to desktop	\$1,500 – \$3,000
Photography curation — 99 HQ images Selection, optimisation, category system, lightbox	\$800 – \$2,000
Direct-booking funnel — WhatsApp, zero commission Booking integrations are billed \$500 – \$5,000 in the market	\$500 – \$2,000
SEO foundation Titles, meta, sitemap, robots, Open-Graph share cards	\$500 – \$1,500
Accessibility & cross-device QA Full audit — 42 page-views, zero broken images or errors	\$500 – \$1,500
Brand & identity assets Favicons, app icons, social share graphics	\$300 – \$800

COMPARABLE AGENCY TOTAL

What this website is worth on the **\$11,000 – \$25,000+** open market

And here is the part that matters: Shay Investments commissioned this build for a small fraction of that figure — local, direct, and with every file handed over outright. The value isn't in what it cost. It's in what it now earns: with direct bookings averaging **\$516 per stay against \$312 via an OTA**, the website repays its entire build cost within a handful of reservations it wins you.

Design & build

Quality

Craft & approach

- ◆ **Framework-free.** Hand-written HTML, CSS & JavaScript — no WordPress, no page-builder. Faster, lighter, free of plugin bloat, subscriptions and security churn.
- ◆ **Mobile-first & responsive.** Designed for the phone first, then scaled to desktop. Verified with zero horizontal overflow.
- ◆ **Real photography.** The full official high-resolution set drives the gallery and every room card.
- ◆ **Accessible.** Descriptive alt text, keyboard-friendly navigation and lightbox, sensible headings and focus states.
- ◆ **SEO-ready.** Titles, meta descriptions, Open-Graph share images, sitemap & robots.
- ◆ **Performance.** Lazy-loaded imagery, self-hosted fonts and optimised assets keep pages quick.

Rooms & Cottages — desktop.

The same site, effortless on a phone.

Why framework-free matters for you

No monthly platform fees, no plugins to break or update, and nothing locking you in. The whole site is plain files that can live on any hosting you choose and be edited quickly — which keeps ongoing changes simple and affordable.

Ongoing care & growth

Optional

The website is complete and yours to keep. If you'd like it to keep evolving — and to keep Maya visible and booked — here are two optional ways we can continue working together.

OPTIONAL

Website Care

\$250 every 2–3 months

Your website, kept fresh, current and growing — whenever you want a change, it happens.

- ✓ Ongoing updates & content changes on request
- ✓ New features & sections as the resort grows
- ✓ Photo, menu & price refreshes in days, not weeks
- ✓ Seasonal campaigns — offers, holidays, events
- ✓ Speed, security & backup upkeep
- ✓ Priority turnaround, direct line to the builder

Agency care plans run \$150–\$500 per month — this works out around \$85–\$125.

ADVERTISING & GROWTH

Marketing Package

By agreement with Shay Investments

One arrangement that covers your website *and* your marketing.

- ✓ **Website Care included** — never billed separately
- ✓ Social media content creation
- ✓ Posters, flyers & branded graphics
- ✓ Short videos & reels for socials
- ✓ A steady stream of content to stay booked

The maintenance is part of it — you never pay for it twice.

How it works: Website Care (\$250 every 2–3 months) is entirely optional and only applies if you'd like ongoing changes. If Shay Investments agrees an advertising retainer, the maintenance is folded into that package at no extra cost — so it's covered, not a separate bill.

Content we can create for you

Sample resort imagery — the kind of content we turn into posts, posters, flyers & reels.

READY WHEN YOU ARE

Let's keep Maya growing.

Ownership & handover

Yours

Everything about this website belongs to you — **completely, permanently, with nothing renting space between you and your guests.**

OWNERSHIP

Every file is yours

The complete website — all pages, images, styles and code — is delivered to you outright. No licences, no subscriptions, no platform holding it hostage.

FREEDOM

Host it anywhere

Because the site is plain, hand-coded files, it runs on any hosting you choose — today's, tomorrow's, or the next one. You are never locked in.

SIMPLICITY

Nothing to break

No plugins, no builders, no database. There is simply less that can fail, be hacked, or demand a paid update at the worst moment.

CONTINUITY

Easy to evolve

New photos, menus, offers and pages slot in cleanly. Whether you use Website Care or your own people, changes stay quick and affordable.

Handed over with the site

- ☐ All 21 pages, assets & the full 99-photo gallery
- ☐ Brand assets — logo files, favicons, share cards
- ☐ This handover document

Small things that finish the polish

- ☐ A photo of the real gym (optional swap)
- ☐ TikTok handle & exact gate GPS pin
- ☐ Anything you'd like changed — just say it
